Victron Energy more than doubles its warranty period

Almere Haven, 9 February 2015, [Victron Energy](http://www.victronenergy.com), a leading Dutch power solutions provider, announces the extension of its warranty period. As of January 2015 all products now come with a 5 year limited warranty, with the exception of batteries which are 2 years limited warranty. This more than doubles the current warranty period.

Matthijs Vader, CEO of Victron Energy: “Ever since Victron Energy was founded in 1975 by my father Reinout, the product lines have continued to grow along with ever improving quality and reliability. As a consequence of this and due to the confidence we have in our products, we have decided to upgrade our warranty to end users.”

Note for editors: For additional questions, please contact Carola Rijnbeek.

About Victron Energy
