Remark:

- 1. GE warranty extension could be purchased before the standard warranty (5 years) expires.**
- 2. GE strongly recommends our customer to purchase the warranty extension by following below 2.1 & 2.2 timelines and if it falls into this range, price listed A shall be applied (with early bird discount already built in).**
 - 2.1 For the on-grid inverter which is 25KW and above (e.g. commercial/industry & PV site users): within 6 months from inverter production date.**

2.2 For the on-grid inverter which is below 25KW (e.g. residential users): within 24 months from inverter production date.

3. If there's any purchase request coming within the time period of 3.1 & 3.2, price list B shall be applied.

3.1 For the on-grid inverter which is 25KW and above (e.g. commercial/industry & PV site users): 6 months (included) to 4 years from inverter production date.

3.2 For the on-grid inverter which is below 25KW (e.g. residential users): 24 months (included) to 4 years from inverter production date.

4. If there's any purchase request coming within the time period of 4.1 & 4.2, price list C shall be applied.

4.1 For the on-grid inverter which is 25KW and above (e.g. commercial/industry & PV site users): 4 years (included) to 5 years from inverter production date.

4.2 For the on-grid inverter which is below 25KW (e.g. residential users): 4 years (included) to 5 years from inverter production date.

5. Please note, supporting documents might be requested to prove the inverter running in good status when the price list B or C is applied.

6. For the 'To 12' and 'To 15' years extended warranty means the original 5 years standard warranty will be extended up to 12 to 15 years, it does NOT mean you will get additional 12 to 15 years warranty on top of the original 5 years standard warranty.

7. All the prices mentioned above are TAX excluded.
